OBJECTIVE

Insightful and Analytical frontend web app developer. I actively seek out new technologies and stay up to date on software engineering trends and advancements. I am constantly eager to learn new things and take on new challenges. Committed to providing clients with practical and readily used app solutions.

Efficiently coding websites and applications using modern HTML, CSS, and JavaScript. Frequently praised on my hardworking nature by my peers and Teachers.

EXPERIENCE

IIUI Final Year Project September 2021 – September 2022

My final year project is an online counseling website for this I used the used library React JS. I also have worked with bootstrap React, and Material UI. I am well familiar with react-router Dom Hooks, and Events.

Freelance projects

Designed responsive layouts for clients in Angular while keeping deadline in mind.
